Modification of Mail Classification
Schedule for Global Reseller Expedited
Package Contracts

Docket No. MC2015-18

PUBLIC REPRESENTATIVE COMMENTS

(December 17, 2014)

The Public Representative hereby provides comments pursuant to Order No. 2278.¹ In that Order, the Commission established the above referenced docket to receive comments from interested persons, including the undersigned Public Representative, on a Postal Service notice of a minor classification change regarding the description of the Global Reseller Expedited Package (GREP) Contracts product.²

The minor revision proposed by the Postal Service is to section 2510.7.1b of the Mail Classification Schedule. The pertinent portion currently reads “[t]he reseller’s customers are required to use PC Postage from an authorized PC Postage vendor for payment of postage or use an authorized Meter Provider using devices and methods for data entry authorized by the Postal Service.” The Postal Service requests that portion to be changed to “[t]he reseller’s customers are required to use PC Postage from an authorized PC Postage vendor, or any other method authorized by the Postal Service under the reseller’s Global Reseller Expedited Package contract, for payment of

postage.” Notice at 1. All other aspects of the GREP Contracts product description remain the same.

The Postal Service states that the change will allow it to offer GREP contracts to resellers whose customers use various postage payment methods authorized by the Postal Service, as well as offer its own permit shipping software (e.g., Global Shipping Software) to resellers. *Id.* at 2.

Comments

The Public Representative has reviewed the Postal Service’s Notice and concludes the request to change section 2510.7.1b of the GREP Contracts product description, with all other aspects of the description remaining the same, to be minor in nature, not inconsistent with 39 U.S.C. § 3642. The change offers the Postal Service with more flexibility when contracting with resellers, which the Public Representative believes is in the public interest. Thus, the Public Representative has no objection to the minor change.

The Public Representative respectfully submits the foregoing comments for the Commission’s consideration.
